1) EXECUTIVE SUMMARY

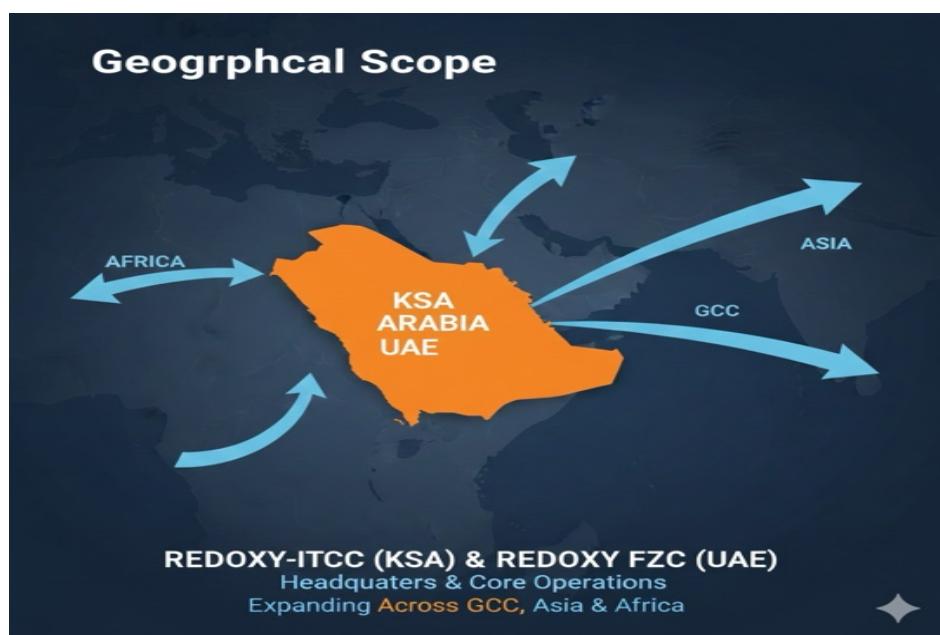

Overview

REDOXY-ITCC (SAUDI ARABIA) AND ITS BRANCH, REDOXY FZC (UNITED ARAB EMIRATES), FORM A MULTIDISCIPLINARY GROUP SPECIALIZING IN ENVIRONMENTAL SERVICES, SUSTAINABLE WASTE MANAGEMENT, ONSITE WASTEWATER TREATMENT, AND PROFESSIONAL INDUSTRIAL SERVICES ACROSS THE GCC AND INTERNATIONAL MARKETS. THE GROUP DELIVERS INTEGRATED SOLUTIONS THAT SUPPORT CLIENTS IN OIL AND GAS, PETROCHEMICALS, POWER, WATER, MANUFACTURING, AND INFRASTRUCTURE.

AS A LEADING ENVIRONMENTAL AND WASTE MANAGEMENT COMPANY IN SAUDI ARABIA, THE GROUP FOCUSES ON INNOVATION, RESEARCH, AND DEVELOPMENT TO REDUCE WASTE, ENHANCE TREATMENT EFFICIENCY, AND SAFEGUARD THE ENVIRONMENT, WHILE THE UAE BRANCH STRENGTHENS CROSS-BORDER TRADE, LOGISTICS, AND SPECIALTY CHEMICALS SUPPLY.

Geographical Scope

THE GROUP'S OPERATIONAL FOOTPRINT IS CENTRED IN THE KINGDOM OF SAUDI ARABIA (KSA) AND THE UNITED ARAB EMIRATES (UAE) AND IS STRATEGICALLY FOCUSED ON EXPANSION ACROSS THE WIDER GCC REGION, ASIA, AND AFRICA.

3) MISSION, VISION & VALUES

Mission

OUR MISSION IS TO REVOLUTIONIZE WASTE MANAGEMENT IN SAUDI ARABIA BY PROVIDING INNOVATIVE AND SUSTAINABLE SOLUTIONS THAT MINIMIZE ENVIRONMENTAL IMPACT. WE ARE DEDICATED TO TRANSFORMING WASTE INTO VALUABLE RESOURCES, FOSTERING CLEANER COMMUNITIES, AND CONTRIBUTING TO A GREENER FUTURE FOR GENERATIONS TO COME.

Vision

BECOME A REGIONAL LEADER IN INDUSTRIAL SERVICES AND WASTE MANAGEMENT, DRIVING PARTNERSHIPS, OPERATIONAL EXCELLENCE, AND ENVIRONMENTAL STEWARDSHIP.

Core Values

-
- SAFETY & ZERO HARM
 - ENVIRONMENTAL RESPONSIBILITY
 - CUSTOMER FOCUS
 - OPERATIONAL EXCELLENCE
 - INTEGRITY & TRANSPARENCY
 - INNOVATION & TECHNOLOGY
-

4) QUALITY POLICY:

QUALITY POLICY

INNOVATIVE TECHNICAL CONTRACTING COMPANY | REDOXY FZC

AT REDOXY, WE ARE COMMITTED TO DELIVERING HIGH-QUALITY INDUSTRIAL SERVICES, WASTE MANAGEMENT, AND WASTEWATER TREATMENT SOLUTIONS WHILE MAINTAINING THE HIGHEST STANDARDS OF ENVIRONMENTAL, HEALTH, SAFETY, AND QUALITY MANAGEMENT.

CERTIFICATIONS AND STANDARDS:

REDOXY IS CERTIFIED UNDER THE FOLLOWING INTERNATIONALLY RECOGNIZED ISO STANDARDS, WHICH GUIDE OUR COMMITMENT TO EXCELLENCE:

- ISO 9001:2015 – QUALITY MANAGEMENT SYSTEM

Exceptional Financial Trajectory

- **Revenue Projection:** Surpass AED 500 million by 2029.
- **Growth Rate:** Nearly 10x growth since 2026.
- **Industry Comparison:** Our growth significantly outpaces the global bunker fuel market's 4.3-5.6% CAGR.
- **Drivers:** Strategic geographic positioning, exclusive long-term supply agreements, and significant operational efficiency gains.

Strategic Goals & Expansion

- **Strengthen Leadership:** Through scalable operations, technology integration, and collaborative partnerships.
- **Key Partners:** Refineries, industrial clients, and institutional investors seeking long-term value.
- **Infrastructure Expansion:** Plans to double storage and logistics infrastructure.
- **Market Penetration:** Targeted entry into key Sub-Saharan African markets.
- **Competitive Advantage:** Leveraging robust logistics network and proprietary blending capabilities.

Made with GAMMA

Diversified Oilfield Fuels Portfolio

Our product portfolio encompasses a strategically diversified range of oilfield fuels designed to serve multiple industrial sectors whilst maximising operational resilience and revenue stability.

Fuel Oil

Core revenue driver serving industrial heating, marine bunker fuel, and power generation sectors. High-volume, reliable demand across established markets with strong refinery partnerships ensuring consistent supply.

Furnace Oil (RO)

Key feedstock for thermal power plants and heavy industries including cement, steel, and chemicals. Critical role in energy-intensive manufacturing processes across GCC and Asian markets.

Black & Slope Oil

Monetising residual streams through secondary blending operations. Efficient utilisation of refinery by-products creates additional revenue streams whilst supporting sustainability objectives.

Off-Spec Materials

Supporting zero-waste operations through careful handling and reprocessing of off-specification products. Steady cash flow from materials that would otherwise represent disposal costs.

This diversified product mix enhances revenue resilience against commodity price fluctuations whilst positioning us to capitalise on varied demand patterns across industrial, marine, and power generation sectors.

Made with **GAMMA**

Scaling Through Efficiency and Expansion

Our strategic growth framework combines operational excellence with geographic expansion, technology integration, and supply chain optimisation to deliver sustainable competitive advantage.

Operational Scaling

Expansion of logistics infrastructure and storage capacity to meet accelerating demand. Investment in strategic hub locations across GCC, Asia, and Africa enabling rapid market response and improved service levels.

Supply Chain Optimisation

Strengthening refinery partnerships and implementing digital logistics platforms. Real-time visibility and predictive analytics reducing lead times whilst enhancing inventory management efficiency.

Automation & Data Systems

Advanced process control systems and AI-powered forecasting tools. Enhanced operational reliability, reduced manual intervention, and improved demand prediction accuracy driving margin enhancement.

Geographic Expansion

Targeted market penetration in high-growth corridors. Leveraging established GCC presence to expand into Asian and African markets through local partnerships and tailored product offerings.

Stable Market Outlook with Regional Demand Expansion

Market Fundamentals

Pricing & Regulatory Landscape

- Fuel oil prices are projected to vary significantly by August 2025:
 - Northeast Asia: **USD 780/MT**
 - Europe: **USD 1,230/MT**
 - Middle East: **USD 2,260/MT**
- IMO 2020 sulphur regulations have driven a major shift in the maritime sector.
- Very Low Sulfur Fuel Oil (VLSFO) now dominates approximately **54%** of the bunker fuel market, reflecting stringent environmental policies.

Market Growth & Our Edge

- The global bunker fuel market is projected to grow at a Compound Annual Growth Rate (CAGR) of **4.3-5.6%** through 2025.
- Our company is projected to achieve **triple-digit growth rates**, significantly exceeding industry averages.
- This accelerated growth is due to our:
 - Agile supply chain
 - Strategic partnerships
 - Specialised portfolio addressing evolving market demands

Regional Demand Expansion

- The GCC and Asia continue to lead in refinery output and consumption growth.
- This growth is driven by robust infrastructure development and manufacturing expansion.
- African markets present compelling emerging opportunities for bulk and blended fuel products as industrialisation accelerates.

Maritime Sector Recovery

Post-IMO 2020 stabilisation driving steady bunker fuel demand

Industrial Growth

Manufacturing and power generation expansion across Asia and GCC

Emerging Markets

African infrastructure development creating new demand centres

Roadmap for Accelerated Growth and Strategic Integration

Short-Term (2026 - 2027): Foundation Building & Optimization

- Establish **4 new refinery partnerships** in the Arabian Gulf and Southeast Asia, aiming for a combined **120,000 barrels per day (BPD) increase** in processing capacity across our network.
- Expand distribution reach by launching **3 new strategic distribution hubs** in key growth markets: **Jeddah (KSA), Singapore, and Mumbai (India)**, targeting a **25% increase** in market penetration within existing GCC and Asian regions.
- Implement **SAP S/4HANA** for integrated logistics and **Palantir Foundry** for advanced inventory management, projecting a **15% reduction** in operational lead times and a **10% improvement** in inventory turnover.
- Achieve initial **ISO 14001 certification** for environmental management across all primary facilities and establish a **SASB-aligned ESG reporting framework**, targeting a **10% reduction** in Scope 1 & 2 emissions (baseline 2025).

Post-2029: Strategic Evolution & Energy Transition Leadership

- Explore vertical integration opportunities through the acquisition of **specialty crude oil refineries** (e.g., processing capacity up to **200,000 BPD**) and strategic investments in **modular petrochemical plants** focused on propylene and polyethylene production.
- Diversify into complementary energy products and services by establishing commercial-scale green hydrogen production **pilots**, securing initial contracts for Sustainable Aviation Fuel (SAF) supply, and initiating **carbon capture and storage (CCS)** feasibility studies.
- Lead industry ESG standards by committing to a **Net-Zero target by 2050** (validated by SBTi), chairing the **Global Clean Fuels Alliance**, and publishing an annual **Integrated Sustainability Report** aligned with GRI standards.
- Position the company as a market leader in **low-carbon energy solutions** within the APAC region, targeting **50% of total revenue** from new energy ventures by 2035, while maintaining core business strength in traditional fuels.

Medium-Term (2028 - 2029): Scaling Operations & Diversification

- Deploy **AI-powered demand forecasting** (e.g., IBM Watson) and **automated fleet management systems** (e.g., Geotab) across all logistics operations, anticipating a **20% efficiency gain** and **15% reduction** in fuel consumption.
- Execute regional expansion into emerging African markets (**Kenya, South Africa**) and secondary Asian markets (**Vietnam, Philippines**), aiming to secure contracts for **300,000 tonnes per annum (TPA)** of new fuel supply.
- Actively pursue strategic acquisitions of **mid-sized fuel terminals** or joint ventures for **biofuel production facilities** with a minimum capacity of **50,000 TPA**, primarily targeting North African and APAC regions.
- Achieve **ISCC EU certification** for all relevant supply chains and implement **25% renewable energy integration** (solar/wind) at our primary operational facilities, contributing to a further **15% reduction** in carbon intensity.

Throughout this roadmap, we remain committed to sustainability, regulatory compliance, and ESG integration to reinforce global credibility and attract institutional capital seeking responsible energy investments, aiming to increase our ESG score by **15 points** on leading indices (e.g., MSCI, Sustainalytics) by 2030.

Made with GAMMA

Strategic Collaborations for Mutual Growth

We actively seek strategic partnerships with refineries, industrial clients, and institutional investors to accelerate growth, enhance operational capabilities, and create shared value across the energy supply chain.

Joint Ventures

Collaborative refinery and distribution partnerships to scale regional capacity. Shared investment in infrastructure and technology creating mutual benefit whilst reducing individual capital requirements and market entry barriers.

Offtake Agreements

Long-term supply contracts ensuring volume certainty and pricing stability. Multi-year commitments providing revenue visibility for partners whilst securing reliable supply for our customer base across key markets.

Technology Partnerships

Collaborative implementation of digital monitoring, automation, and analytics platforms. Efficiency gains through shared innovation investment reducing operational costs whilst improving service quality and reliability.

Investment Collaboration

Strategic capital infusion opportunities to expand refining capacity and export capabilities. Institutional investors gain exposure to high-growth energy sector with proven operational track record and clear expansion roadmap.

A Strong Investment and Partnership Case

Why Partner with Us?

We present a highly attractive opportunity for investors and strategic partners, backed by robust financial performance and impeccable operations. Our value proposition includes:

- Exposure to high-growth energy markets
- Proven execution capabilities and significant value creation
- Strategic expansion and diversification into new energy segments
- Commitment to sustainable practices for long-term profitability and market leadership

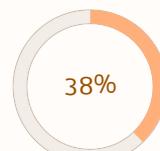

Our impressive financial growth highlights our potential:

Revenue Growth
From AED 52.8M to AED 511.5M

Gross Profit Expansion
From AED 19.7M to AED 194.3M

Consistent Margins
Stable across scaling phases

What Makes Our Opportunity Unique?

Our unique value proposition combines strategic advantages, operational excellence, and an unwavering commitment to innovation and sustainability.

Exceptional Operational Metrics

We consistently outperform industry averages in key efficiency indicators, including:

- Delivery times
- Cost per barrel
- Asset utilization

Our state-of-the-art logistics ensure optimal performance.

Strategic Market Advantages

Leveraging exclusive agreements and partnerships, we command significant market share in critical high-growth regions. Our agile strategies allow us to:

- Quickly adapt to geopolitical and economic shifts
- Secure first-mover advantages

Proprietary Technology & Processes

Investment in advanced analytics and AI-driven systems provides a significant competitive moat, enhancing:

- Efficiency and operational cost reduction
- Profitability across the board

ESG Leadership

Beyond compliance, we pioneer the integration of Environmental, Social, and Governance principles into our core business strategy, attracting socially conscious investors and positioning us for future regulatory landscapes.

Our Core Strengths for Investment

Financial Discipline

We demonstrate a robust and proven ability to scale operations efficiently while rigorously maintaining margin integrity. Our conservative financial management principles provide clear visibility into cash flows, optimal capital allocation priorities, and a strong balance sheet. We have successfully navigated volatile market conditions through proactive risk management and strategic hedging, ensuring financial stability and sustainable growth. Our lean operational structure and continuous cost optimization initiatives further bolster our financial resilience, delivering consistent returns even amidst market fluctuations.

Scalable Operating Model

Our infrastructure and systems are meticulously designed for sustained and significant expansion without compromising efficiency. We have demonstrated a remarkable capability to achieve tenfold revenue growth while preserving and enhancing operational efficiency and service quality. This is underpinned by our modular expansion strategy, adaptable supply chain, and integrated digital platforms that facilitate seamless growth across new markets and product lines. Our operational blueprint is built for rapid deployment and integration, allowing us to capitalize on emerging opportunities with agility and precision.

Attractive Returns

The compelling combination of our aggressive growth trajectory and remarkably stable margins creates an exceptionally strong investment case. We project substantial capital appreciation and robust dividend yields for investors. To align with diverse investor objectives and risk profiles, we offer multiple flexible partnership structures, including equity investments, joint ventures, and strategic alliances. Investment tiers are structured to accommodate various capital commitments, with clear pathways to exit strategies and potential returns. Our financial models project a 25% IRR over five years, driven by market expansion and operational efficiencies, making us an ideal partner for long-term value creation.

Risk Mitigation & Competitive Advantages

Our strategy is fortified by comprehensive risk mitigation frameworks and distinct competitive moats, ensuring the longevity and security of our investments.

Rigorous Risk Management

We employ a multi-layered approach to risk, including:

- Geopolitical analysis
- Commodity price hedging
- Robust cybersecurity protocols

Regular stress-testing ensures preparedness for adverse market scenarios.

Validated Market Demand

Our growth is predicated on verified market needs in rapidly industrializing economies and burgeoning renewable energy sectors. Independent market research confirms sustained demand for our products and services for the foreseeable future.

Strong Regulatory Compliance

Adherence to the highest international standards for environmental and operational compliance not only mitigates legal and reputational risks but also positions us favorably for future carbon credit markets and green financing.

Sustainable Competitive Moats

Our advantages include:

- Proprietary technology
- Strategic control over key distribution channels
- Exclusive long-term supply contracts
- Deep talent pool in specialized energy sectors

These factors create significant barriers to entry for competitors.

Made with **GAMMA**

Building Strategic Partnerships for the Future

We invite **industrial clients, refinery partners, and institutional investors** to engage in meaningful collaboration that drives operational growth, regional expansion, and technology integration across the oilfield fuels sector.

Partnership Goals

- Accelerate operational capacity and geographic reach
- Share technology and innovation investment
- Create sustainable competitive advantages
- Generate superior returns through shared expertise
